The passionate island in the middle of the vast ocean is thousands of kilometers away from the U.S. mainland. Apart from being the only state in the U.S. that is entirely in the tropics, it is also the only state that is not geographically connected to North America. The state of Hawaii, comprising the Hawaiian archipelago, has pristine and beautiful ocean coastlines, lava flow surface and vibrant tropical rainforests. It also has the most active volcano in the world. What is more splendid than the rich natural ecology is the diverse culture of the island and the noisy urban scenes.

According to the latest 2021 ranking of global livable cities released by the Economist Intelligence Unit (EIU), Honolulu, Hawaii stands out among the advanced cities due to its vaccination program promoted at the end of last year which successfully prevented the further spread of COVID-19.

In addition, the well-known American travel magazine "Travel + Leisure" surveyed tourists for the ranking of the best tourist cities in the United States, and Honolulu, Hawaii ranked No. 8. This city, which is loved by many tourists, has been hailed as "the most exciting and interesting city." Hawaii's economic pillar is tourism, hence it pays special attention to the safety of tourists. The state has one of the best public security measures and excellent overall social welfare. According to the statistics of U.S. News & World Report in 2019, Hawaii's "health care services" and "medical quality" are both the top ranking in the U.S. Therefore, it is not surprising that Hawaii has been ranked as the "Happiest State in America" for seven consecutive years in the Gallup statistical rankings.

In tropical climates, Hawaii's unique geographical location is isolated from the rest of the world and the bright sun seems to remind visitors to enjoy its warmth. With the cold and clear waves hitting the shore one after another, it hopes to wash away all the worries of travelers. In addition to strolling on the leisure trails surrounded by the beautiful scenery, you can also choose to ride the waves in the hot sun, or have an adventure in the extraordinary landscape of uncanny workmanship. The unique Hawaiian experience can be customized or personalized by every individual.
